Manhattan CryoBank provides high-quality donor semen for assisted reproductive procedures. Donor specimens are available on a first-come, first-served basis. Our sperm donor catalog is updated monthly and provides basic information on current Anonymous Donors (marked as "AD") and ID Disclosure donors (marked as "ID").

Abbreviated donor profiles are posted online and can be accessed from the HTML version of our catalog, just click on the Donor Code to view them. Extended profiles containing medical and family health history can be purchased. Baby/childhood pictures and donor podcasts (audio interviews) are also available in CDs in mp3 format .

Please contact our office with inquiries, we will assist you in choosing a donor that looks as close as possible to your spouse or partner.
